Kosher and organic whenever available

## ***“Putting Heavenly Sparks Back into Food”***

- De La Rosa Real Foods & Vineyards has been in operation for more than 30 years, selling the highest quality of oils and vinegars to discerning consumers. Five years ago organic and vegan Grape Juice and Wines were added to the portfolio of products. The company was lovingly founded by Rabbi Asher Devere Girshberg who always believed that “we are what we eat” and that, therefore, we must choose our food products carefully. Starting in 2011, the Rabbi was joined by his new wife, Yehudith Girshberg, and together they continued to nurture the business.
- Because the principle is to find “medicine” in food, De La Rosa was the first to discover the advantages of Grape Seed Oil and import it into America.
- Our unique, estate-grown kosher organic Organic Red Grape Juice quickly emerged into a De La Rosa top seller once it was launched. Simply try this “Grapes in a Bottle” refreshing delight and see if you too join the chorus of “Wow!” Most who try it do, which is how the name was derived.
- De La Rosa P.G.I Organic Balsamic and Wine Vinegars of Modena speak for themselves in regard to taste and artisanal production standards. Companies are seeking De La Rosa out to obtain this hard to find both kosher and organic grocery delicacy.
